**Press Release updated 4 pm  
July 18, 2024**

An investigation by officials has determined that a rail car at Eagle Rail Site on Foreman Road is conducting a controlled flaring operation, which is expected to continue for several more hours until completion. Air monitoring is underway, and a determination on when to lift the current shelter-in-place order will be made after the Texas Commission on Environmental Quality (TCEQ) completes their toxicology reporting.

Currently, West Orange, Bridge City, and Orangefield remain under shelter-in-place orders. Citizens are advised to take precautions while driving and are outside in these areas.

Orange County Emergency Management and local officials will continue to closely monitor the situation and provide updates as soon as they become available.
